1. Permits, Change, Transfer, Renewal, Sale

The Division Order for Highwall Elimination at the West Ridge Mine has not been resolved. The operator is in the process of addressing additional items to satisfy the Division Order.

2. Signs and Markers

The Mine ID signs at the Pump House and at the Mine Site entrance are in place. The operator's phone number prefix has changed from 564 to 888. This change needs to be reflected on the ID signs. The other information on the ID signs is accurate. All other signs and markers observed during the inspection are in accordance with the approved MRP and the coal rules.

4.b Hydrologic Balance: Sediment Ponds and Impoundments

The MRP specifies that a catwalk be present in cell B of the sediment pond for monitoring purposes. This item was discussed during the partial inspection. A catwalk is being constructed by a steel fabricator and will be installed in cell B. The catwalk fabrication is almost completed, and the operator anticipates that the cat walk will be installed before the next inspection.

4.d Hydrologic Balance: Water Monitoring

The second quarter 2003 water quality information is in the EDI website and is uploaded. A review of the EDI website shows that there is third quarter 2003 information present, but it has not been uploaded. Water monitoring is current.
